

# The Core Model

Your whole method in one seven-minute drawing. The client's big promise in the center, the three outcomes you create every time around it, and the nine moves you make better than anyone else around those.

## 1 Your example

2 MIN

**What do you do, and who do you do it for?**

*Then the test: do you know more about this, for these people, than anyone else? If not, narrow it until you do.*

## 2 The center: the big promise

WHAT THEY WANT MOST

**What does your client want most, in their words?**

*The client sits geometrically in the middle of your business. Everything is built around what THEY want.*

**The promise, compressed to five words or fewer**

## 3 The three outcomes

EVERY CLIENT, EVERY TIME

**Outcome 1: a result you create for every client no matter what**

*Not a feature or deliverable. When drawing live, ask 'would this result matter to you?' and wait for the yes.*

**Outcome 1, compressed to five words or fewer**

**Outcome 2: a result you create for every client no matter what**

*Not a feature or deliverable. When drawing live, ask 'would this result matter to you?' and wait for the yes.*

**Outcome 2, compressed to five words or fewer**

### **Outcome 3: a result you create for every client no matter what**

*Not a feature or deliverable. When drawing live, ask 'would this result matter to you?' and wait for the yes.*

**Outcome 3, compressed to five words or fewer**

#### **4 The nine moves**

3 PER OUTCOME

**Outcome 1, move 1: something you do better than everybody else (verb first)**

**Outcome 1, move 2: something you do better than everybody else (verb first)**

**Outcome 1, move 3: something you do better than everybody else (verb first)**

**Outcome 2, move 1: something you do better than everybody else (verb first)**

**Outcome 2, move 2: something you do better than everybody else (verb first)**

**Outcome 2, move 3: something you do better than everybody else (verb first)**

**Outcome 3, move 1: something you do better than everybody else (verb first)**

**Outcome 3, move 2: something you do better than everybody else (verb first)**

**Outcome 3, move 3: something you do better than everybody else (verb first)**

#### **5 The choreography**

7 MINUTES, 4 BEATS

**Entry: your disarming first line as you reach for the pen**

*'I think I can draw this' watches the whole room relax.*

**Punchline: the sentence that flips their old belief**

*Deliver it right after the center lands, touch the drawing as you say it, then three seconds of silence.*

**Exit: the bridge to what happens next**

**Which part will you let THEM label?**

*It is hard to disagree with a model you partially built.*
